

Religious Education Department

Long-term sequencing Year 7

The course starts with a study of the Church in our local area, making connections with Stuart Bathurst and his importance in our school. Students will then go on to explore the Abrahamic covenant and subsequently, the foundations of the Christian Church. Students then need to apply key Biblical teachings to modern day issues, such as justice, equality and belonging. This will include Catholic identity, the sacraments of Church and what religious commitment looks like in the 21st Century. Finally, we aim for students to be culturally and religiously diverse through the study of Islam in the modern world.
